

Clark Forklift

Clark Forklift Forklift Training - Presently, there are at least 350,000 Clark forklifts performing worldwide, and in excess of 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized items designed for 20 distinctive models of forklifts and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark has a exceptional Parts Supply team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a really outstanding worldwide support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the operator restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the internationally approved quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a dominant industry position.

Lean Production

Clark has preferred the extremely economical and beneficial structure of "Lean Production" for its assembly plants and application of resources. This system was established to acknowledge the most effective approaches of manufacturing facility management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engineering

By working in concert, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The new value engineering program combines innovative product improvement and offers improved customer support and service within the industry.
